What primary problems do your services solve for your customers?	We offer beef, pork and will be offering chicken from our local farm to provide home grown food to our local communities.
Business Type	Consumer
What type of customer or client are you trying to attract more of?	We are trying to attract people that are wanting food that is grown locally and cared for on our own farm. We want to provide healthy food for our community.
Why was your business started?	Our business was started due to wanting to provide people in our community with healthy food that was grown locally so that they know what they are being fed, how they are taken care of on day to day basis, etc.
What sets your business apart from competitors?	We raise our product ourselves and we try to do it as naturally as possible. We do not give our animals antibiotics, vaccines or anything like that. Our pigs have access to pasture and woods. We feed them milk from our A2/A2 dairy cow and mix their feed ourselves daily. Our beef is grass finished to provide a healthier/leaner beef. We want to provide the healthiest, best tasting food to our locals.
Are there any facts or interesting quirks about your business that you'd like to highlight?	Just the fact that we raise everything as natural as possible and that we mix their feed and care for them every day ourselves. We both have full time jobs along with this and a 6 year old. 😊
Do you have a logo?	Yes
Logo file	Untitled (Stickers (Oval) (Landscape)).png
Are photos available?	Yes

Interested add-ons	Social Media Graphics
Website goals	Sell Products Build Credibility Provide Information to Existing Customers
Target launch date	07-31-2026
What is your estimated monthly budget for third-party tools and services (such as website hosting, contact forms, booking software, or payment processing)?	\$30 to \$100 — I am comfortable with standard business software costs
Additional notes or questions	I didn't add pictures of the meat because I didn't want to over load and it doesn't have a label on it or anything. Is there a way we can add those later? And also, you don't have to use all of the pictures, I just added a bunch so you would have plenty to work with.
